ABSTRACT

This project aims to develop a feature-rich online book club website, offering a user-friendly interface where members can register, browse books, participate in discussions, track reading progress, and join live chats. The website will include essential pages such as Home, About, Books, Events, Contact, and Registration, with interactive features such as book summaries, author details, user reviews, ratings, social details, user reviews, ratings, social media integration, and a dynamic background with changing book-images..
